The **Healthcare Simulation in Pediatrics Learning Community** is excited to provide an update about projects our group has been working on over the year.

1. We recently distributed an APPD approved survey about the use of simulation education in pediatric residency training. Our goal is to both gain a better understanding of the current state, as well as help promote future collaboration and mentorship. Thanks to those who have completed the survey and, for those who haven't, please do so we can get accurate numbers!
2. We created a [database of simulation resources](#) based on collective input of the Learning Community. It is available through the APPD website on the Learning Community page. Feel free to check it out. We welcome any additional resources people would like to share.
3. Our group was excited to submit two Enhanced Learning Sessions for the APPD Annual Spring Meeting. If they are accepted, we will share more about opportunities to get involved.
4. Ariel will be completing her term as Chair of the Sim LC at the upcoming Spring Meeting and we will be looking for a new Vice Chair to join Amanda. We will talk more about this at the Spring Meeting, but think about joining us and please contact us with any questions you have about the position.

We look forward to meeting as a group at the Spring Meeting! Let us know if you have any questions or additional ideas in the meantime.
